

Kentucky Cancer Summit

Muhammad Ali Center, 144 N. 6th St., Louisville, KY 40202

SAVE THE DATE!

March 1-2, 2017

Pre-Summit Workshops

March 1 (8am–4pm)

Option 1: Cancer & Careers Training: Navigating Cancer: Work and Insurance

This comprehensive pre-summit in-service is for oncology healthcare professionals and advocates. It will provide training on the practical and legal issues that patients, survivors, and caregivers face when it comes to cancer and work. Learn how to advise patients, provide credible referrals, and connect with peers in the field.

Objectives:

- Understand practical and legal issues that patients, survivors and caregivers face when it comes to cancer and work.
- Know how to advise patients, provide credible referrals and connect with peers in the field.

Option 2: Tackling Lung Cancer Policy in Kentucky: A Strategy Workshop

This pre-summit workshop is for local, regional and statewide organizations interested in addressing lung cancer policy issues to work together to determine strategies and action steps for priority policy opportunities.

Objectives:

- Recognize priority lung cancer-related policy opportunities in Kentucky.
- Discuss the role of lung cancer-related policy in Kentucky's political landscape.
- Develop action steps to address priority lung cancer-related policy issues in Kentucky.

Summit

March 1 (5pm–8pm) & March 2 (8am–3pm)

Keynote speakers:

Dr. Otis Brawley, American Cancer Society
Dr. Thelma Hurd, University of Texas Health Science Center

Objectives:

- Understand the recommended cancer screening guidelines.
- Recognize the impact of social determinants of health on cancer screenings.
- Leave with action steps on ways your organization can increase recommended cancer screenings in Kentucky for breast, cervical, colon, and lung cancers.

Who should participate:

Local, regional and statewide organizations interested in reducing cancer in Kentucky, including community-based organizations, community leaders, public health professionals, nonprofit organizations, academia, health care professionals, health care systems, government employees, and others.
