

Kentucky Cancer Consortium Member Evaluation

Kentucky Cancer Consortium (KCC) members collaborate to reduce the burden of cancer in Kentucky. With more than 70 statewide and multi-regional organizations, we listen, learn, and lead together. Highlights from 2015-2016 include:

TOPICS RECOMMENDED FOR FUTURE KCC QUARTERLY MEETINGS:

- Best practices in reaching underserved populations
- Collaboration, networking, and partnership
- Colon cancer prevention (how to reach 80% by 2018)
- Dangers of over screening and over diagnosis
- Evaluating systems changes to address root causes of cancer disparities
- Financial “toxicity” of treatment
- Health literacy, community engagement, and capacity
- Health policy issues of genetics and cancer
- Mental health and cancer
- New cancer treatments
- Palliative and end of life care
- Processes (i.e., navigation from screening to diagnosis, applying for funding, legislative)
- Resources for patients and families
- Tobacco prevention in adolescents at the school system level
- Using community health workers for cancer prevention

Wednesday’s Word

Policy and advocacy

Providing credibility

Leadership

Technical support and expert opinion

95%

REPORTED THEY WERE SATISFIED WITH MEETING DISCUSSION & SPEAKERS

95%

REPORTED THEY WERE SATISFIED WITH MEETING NETWORKING OPPORTUNITIES

89%

REPORTED THEY WERE SATISFIED WITH ABILITY TO STRENGTHEN PARTNERSHIPS & SUPPORT ORGANIZATIONAL GOALS

KCC Member Priorities

- Lung Cancer
- Tobacco Prevention
- Survivorship
- Colon Cancer
- Nutrition, Physical Activity, & Obesity

Priorities Recommended for KCC

- Prevention Overall
- Lung Cancer
- Early Detection Overall
- Tobacco Prevention
- Colon Cancer Screening
- Treatment & Care
- HPV/Cervical Cancer
- Survivorship
- Nutrition, Physical Activity, & Obesity

TOPICS RECOMMENDED FOR FUTURE AFFORDABLE CARE ACT & CANCER TEAM MEETINGS

- Cancer moonshot initiative
- Create information resources for non-clinical support services for cancer patients, such as logistics, transportation, and social services
- Empowering' or developing community health leaders for rural areas.
- Examination of screening uptake with coverage
- Focus on new Medicaid changes
- Health Literacy, particularly community efforts and collaborations to improve
- How to interact with provider offices (i.e., how to make or change screening appointments)
- Underinsured
- Overall changes in healthcare coverage since ACA, where ACA is now, and information as it evolves
- Patient centered care
- Prevention care
- Tobacco cessation benefit coverage

TOPICS RECOMMENDED FOR FUTURE LUNG CANCER NETWORK MEETINGS

- Advocacy support
- Continue to address screening
- Continue to work on tobacco control and radon exposure
- Expansion on other environmental carcinogens
- FDA monitoring of e-cigarettes and ways to curb use among Kentucky youth
- How as a network are we meeting the needs of the KY LEADS Collaborative
- Invite Kentucky Insurance Commissioner to address challenges and offer insight/ advice
- More about innovations in lung cancer care
- More emphasis on targeting interventions in counties
- Primary care involvement
- Summaries of recent research development
