

Healthy Homes for Community Health Workers

The National Healthy Homes Training Center and Network has created a course for Community Health Workers (CHWs) to teach them how to provide healthy homes information to community members. This course is targeted at individuals who work as health advocates in their community.

This course will train CHWs to provide one-on-one and large group education on healthy homes, provide advice about specific healthy homes problems. And be able to recommend healthy homes actions to be taken by families, landlords, and other

April 25, 2017
