

Planning, Resources and Best Practices for Your FluFIT Clinic - (August 17, 2018 Webinar Review)

Planning for FluFIT clinic

- Gather team – provide training
- Advertise
- Design a patient flow process
- Develop a Follow up plan – and how to navigate positive tests to colonoscopy
- Work the Plan

Helpful Resources

- Recommended screenings infographic (cancer.org)
- ACS FluFIT Implementation Guide (cancer.org, ACS Reps)
- CRC Screening Best Practices Handbook for Hospitals and Health Systems (NCCRT.org or cancer.org)
- FluFIT flow diagrams ([FluFIT. Org](http://FluFIT.Org))
- Clinicians Summary of Guidelines (cancer.org, ACS Reps)
- Sample Action Plan (FluFIT Implementation Guide)
- Patient Conversation Cards (cancer.org, colonmd)
- Advertising flyers (Brandtoolkit/cancer.org, ACS Reps)
- Clinicians Reference: Stool Based Tests (cancer.org)
- Sample Scripts (FluFit Implementation Guide, CRC Manual for Community Health Centers)
- Results Tracking Sheet (FluFIT Implementation Guide)

Best Practice Sharing (Chastity Watts, Juniper Health)

- Advertising- “ ✓ Your : ” staff t shirts
- Incentive: Drawings for Gift Baskets for those compliant with screening
- Prepaid Envelopes to return kits
- Nurses were “primary drivers” of the FluFIT process
- “If you do your flu shot and FIT test today, it will be easy to remember to do your FIT when you get your flu shot every year” and “this is a simple non-invasive test that is done yearly”
- FluFIT in the fall, FITs in March, during colon cancer awareness month
- Many more best practices in the Best Practice Handbook for Hospitals and Health Systems!
