

**KCC Lung Cancer Network
Tobacco Treatment Health Professionals Workgroup
(proposed name)
August 23, 2017**

Next Steps/Action Items:

- Don't need to create new resources but organize, message and get out to providers
 - Organization
 - What are the needs?
 - Identify groups/pocket areas of need
 - How to get to those who need education?
 - Can insurance companies help?
- Mandate cessation training for providers - put in toolbox but not a priority
- Next meeting? After ACSCAN Resource week? People to email thoughts.
- Let us know thoughts on the name of the group

Tobacco Treatment Specialist Training:

<http://www.uky.edu/breathe/tobacco-treatment/tobacco-treatment-specialist-training>

The BREATHE Tobacco Treatment Specialist (TTS) training is designed to equip you with evidence-based skills to treat tobacco dependence across a range of settings. The BREATHE online TTS course teaches core competencies developed by the Association for the Treatment of Tobacco Use and Dependence (ATTUD) and is accredited by the Council for Tobacco Treatment Training Programs (CTTTP). The course, using the Canvas online platform, includes twenty-seven hours of self-paced training, assignments and evaluation. Expected course completion time is eight weeks. After finishing the course, participants earn a training certificate, which is the first step in obtaining TTS Certification.
