

Dear **Kentucky Cancer Consortium** Partners:

The Kentucky Cancer Consortium (KCC) is pleased to provide you with the **March 27, 2019** issue of “Wednesday’s Word”, a KCC communication resource relaying recent state and national cancer control articles, resources, events and tools to your “cyber-doorstep”. You may read archived editions on [our website](#). If your organization has a cancer-related item for Wednesday’s Word or someone wants to be added to Wednesday’s Word, feel free to contact Jennifer Knight at [jredknight@kycancerc.org](mailto:jredknight@kycancerc.org).

Many thanks once again to Elizabeth Holtsclaw with the American Cancer Society for help in putting this together once again!

Sincerely, Kentucky Cancer Consortium Staff

Support Programs	<ul style="list-style-type: none"> <li><a href="#">Gilda's Club</a> has three free CEU spring programs in Louisville- click on the links to learn more about each program and to register <ul style="list-style-type: none"> <li><b>April 26, 9am-11</b> <a href="#">Demystifying Reiki Therapy</a></li> <li><b>May 10, 9am-11</b> <a href="#">Insights into Introversion</a></li> </ul> </li> </ul>
Tobacco & E-Cigarettes	<ul style="list-style-type: none"> <li><b>Tobacco Control Spring Conference April 16-17<sup>th</sup></b> will be at the Embassy Suites in Lexington hosted by the Kentucky Center for Smoke-free Policy. Click <a href="#">here</a> for the agenda and more information. <a href="#">Registration</a> is now open and at no cost for participants.</li> <li>According to a recent study looking at smoking attitudes and practices of cancer survivors, many attempted to quit smoking within the past year. In a recent <a href="#">blog post</a>, CDC's Dr. Shane Gallaway, discusses the important role of <a href="#">health professionals</a> in educating cancer survivors about the impact from continuing to smoke.</li> </ul>

- A federal court has ordered the [Food and Drug Administration](#) (FDA) to expedite a rule requiring graphic health warnings on cigarette packages and in cigarette advertising, mandating that the rule must be finalized by March 15, 2020. Studies show that graphic warnings are more effective than the current warnings on cigarette packages in informing consumers about the health risks of smoking, preventing children and other non-smokers from starting to smoke, and motivating smokers to quit. At least 122 countries now require graphic warnings on tobacco products
- The youth e-cig epidemic is prompting the [FDA](#) to consider requiring convenience stores that sell flavored e-cigarettes to obtain purchasers' ID before allowing them to enter, according to a story that appeared in [AXIOS](#) in March
- [DrugFreeLex](#) and the Tobacco Committee recently released three striking **public service announcements (PSAs) on JUUL**. These face-paced, fact-based PSAs, designed to target parents, teachers, administrators and other working with youth, are free for all to use. Each video includes facts about JUUL and other e-cigarettes. These short ads provide insight into the chemicals in JUUL and their harmful effects, the rising popularity of JUUL, why youth may be more susceptible to e-cigarette use and addiction, and why e-cigarettes are especially damaging for teens including negative health costs and long-term adverse health effects. **Share these ads on social media, websites, blogs, television, waiting rooms, break rooms, public spaces, movie theaters, and other venues where adults visit:**
