

Kentucky

About this map:

The map shows the estimated prevalence for any colorectal cancer test type. Any colorectal cancer test type includes FOBT (fecal occult blood test) within the past year; sigmoidoscopy within 5 years with FOBT within 3 years; or colonoscopy within 10 years. The county prevalence shown on the right of each map describes the prevalence by quintiles, each associated with a different color scale.

Legend

State Boundaries

Any Test, Mean (%)*

*Model-based county estimated prevalence (%) for being current with any colorectal cancer test type.
