Cancer Data in the Commonwealth: Spotlight on Lung Cancer

April 30, 2019
2-3:30 pm EST/1-2:30 pm Central

[Register here!](#)

Join us for this webinar as we look closely at our Kentucky cancer data with a special focus on lung cancer.

We will highlight prevention, early detection, incidence (new cases), mortality (deaths) and how lung cancer compares to other cancers in Kentucky and the nation.

Our speakers will represent the Kentucky Cancer Registry, Kentucky Behavioral Risk Factor Surveillance Program and more!

We will also provide practical ways to get involved in our collective work.

For more information, contact Dr. Jennifer Redmond Knight at jredknight@kycancerc.org or 859-509-4123.
