Eligibility Requirements

1. The patient must be in active cancer-related treatment (i.e., chemotherapy, radiation therapy, hormone therapy, or other forms of treatment) or up to six months post-treatment.
2. Patients are eligible regardless of insurance status. However, if the patient does have insurance, encourage them to check with their insurance company to see if they can provide additional assistance.

- In the comments section, note “Wig Coupon” and whether they want to have the coupon mailed or emailed to them.
- Capture mailing address and email address as appropriate.
- Capture language so the appropriate coupon can be provided.
